PROFILE

Junior Cybersecurity Specialist focused on Ethical Hacking, Penetration Testing, and Blue Team / SOC operations. Hands-on expertise with industry-standard tools including Kali Linux, Burp Suite, Wireshark, and Nmap, developed through lab environments, CTF challenges (VulnHub, HackTheBox), and vulnerable platforms such as DVWA and Metasploitable 2. Operational background in physical and technological security gained at SAMO Security. Immediately available for internships or entry-level opportunities in the cybersecurity field.

SKILLS

Cybersecurity	Penetration Testing Ethical Hacking Vulnerability Assessment Web App Security Network Security SOC Operations
Tools	Kali Linux Burp Suite Wireshark Nmap Metasploit DVWA
Systems	Linux Windows Virtualisation (VM) PC Assembly Hardware
Soft Skills	Problem Solving Teamwork Communication Confidentiality Operational Autonomy
